# Multimodal Logistics Center Nuremberg

Contact us!

## Efficient all-round service for customers and goods

- **Rail access point** for customers without their own railway siding
- Direct connection to the **Nuremberg shunting yard and to federal roads and highways**
- **Cross-industry usage** for paper, pulp, steel, building materials, vehicle components, household appliances, electronics and consumer goods
- **Safe and professional transshipment** of a wide variety of goods with the aid of special forklift attachments
- **Covered tracks** for wet-protected transshipment between rail and road
- Special expertise and technical equipment in the field of **paper logistics**
- Comprehensive **warehouse logistics**, incl. cross-docking, order picking, palletizing, quality control, empties management, etc.
- Weather-protected storage and protection against dew point undershooting
- Scheduling for **truck pre- and post-carriage** by DB Cargo Full Load Solutions
