

Cargo
Full Load Solutions

Sweden – Italy v.v.

On the road in one of Europe's largest
intermodal networks

We quickly and reliably connect Sweden with Italy at high frequency in our intermodal network

- **High departure frequency** with several departures daily
- Transit time A-G/H
- We use **standard & MEGA tautliners** (HxWxL: 2.70/3.0 x 2.46 x 13.60m)
- **Payload up to 28 t**
- Flexible production concept through **combination of road and intermodal**
- Fast and reliable without traffic jams, rest periods or Sunday driving bans
- Cost-efficient and environmentally friendly without toll charges and with **reduced CO₂ emissions***
- Reliable and predictable cargo space availability
- Our **local contacts** will advise you in your native language

*compared to truck-only transports. Source: [UBA](#)
