Multimodal Logistics Center Hamburg

Full Load Solutions

Flexible logistics solutions in close proximity to the Port of Hamburg

With a floor space of 38,000m², which has a total of 60 dock doors (including 29 doors with level compensation), and an additional outdoor area of around 20,000m², the site is optimally equipped to fulfil a wide range of logistic requirements.

The storage capacity comprises approx. 18,000 storage spaces in the block warehouse and approx. 10,000 spaces in the drive-in and high-bay warehouse. Over 9,000 lorries are loaded each year and more than 500 rail wagons are handled in- and outbound. The 255m long railway site can accommodate up to 12 four-axle Ha wagons. The modern warehouse management and transport management system (SAP and mWare) enables a seamless interface connection for efficient order picking and the provision of value-added services.

The MLC Hamburg in figures

	Storage area in m ²	Technical equipment
Hall 10	4.260	6 gates, heated, LED lighting inside and outside
