Efficient all-round service for customers and goods

- **Rail access point** for customers without their own railway siding
- Direct connection to **the A 5 and A 67 highways**
- **Cross-industry usage**: for steel, containers, paper, pulp, automotive components, consumer goods
- **3 rail sidings** and **covered tracks** for wet-protected transshipment between rail and road
- **Comprehensive warehouse logistics** incl. delivery monitoring, order picking, palletization, quality control, Just-in-Time delivery, inventory management, etc.
- Climate-controlled storage and protection against dew point fluctuations
- Scheduling for **truck pre- and post-carriage** by DB Cargo Full Load Solutions
